### FOUR PERSONS DROWNED.

Maryland Farmer and Three Colored Men Perish.

Havre de Grace, Md., July 24.—John Hess, a farmer, and three of his colored farmhands were drowned late Saturday evening while on the way to the Hess farm, near Fond's creek. Hess and five men left here in a small naphtha launch, to which an accident happened. One of the colored men then swam ashore. Shortly after another accident overturned the launch and two of the men sank. The others clung to the launch for a time, when another of the men swam for the shore and was rescued by a fisherman, while the two remaining were dragged down by the launch, which shortly sank.

### Kills His Wife and Himself.

Philadelphia, July 24.—William Holroyd, twenty-three years old, shot and killed his wife, Lillian, aged seventeen years, Sunday, and then committed suicide by sending a bullet into his heart. The youthful couple were married a year ago and Sunday's tragedy was the result of frequent quarrels recently.

## BURIAL OF THE DEAD

REMAINS OF THE VICTIMS OF THE  
DISASTER ON THE BENNING-  
TON LAID TO REST.

### ALL IN ONE LONG TRENCH

FORTY-SEVEN BODIES INTERRED  
WITH SIMPLE YET IMPRES-  
SIVE CEREMONIES.

San Diego, Cal., July 24.—They buried the Bennington's dead Sunday—forty-seven of them—in a common grave. On the crest of the promontory of Lomax, high above the shimmering water of San Diego bay on the one side and within sound of the booming surf of the Pacific on the other the dead were laid to rest in the peaceful little military burying ground. Without the crash of the drum or the sound of brass, without pomp or parade, yet with simple impressiveness, all honor was paid the nation's dead. They have honored dead to keep them company, these brave boys of the Bennington. All about them lie those who died in the nation's service in more trying times. Gravestones, yellow with age, bear the names of men who died at Monterey in the Mexican war, others who gave their lives in the conquest of California and who followed Commodore Stockton at Old San Pascual. These are their neighbors in death. Army and navy paid their last tributes, no more sincere than the simple grief of the representatives of peace who made the long journey around or across the great bay. From Fort Rosecrans came the One Hundred and Fifteenth company, heavy coast artillery; from the city of San Diego, the naval reserves; from the Universal Brotherhood's home on Point Lomax, a company of khaki clad representatives, and from the government ship Fortune a dozen of their sailors.

### A City of Mourning.

San Diego was a city of mourning Sunday, for the people of this little city have taken in the Bennington catastrophe an interest that was personal to all from the moment that it happened and they set apart the beautiful Sabbath day to pay the last and loving tribute to the dead.

Thousands filed through the morgues in the morning with arms filled with flowers, dropping the blossoms here and there upon some unfortunate's flag-draped coffin. Other thousands gathered in the plaza from which the procession was to start. Promptly at noon the long line of vehicles began the journey around the bay to the burying place. Owing to the steep, sandy and rough roads it was found impossible to use hearses or even dead wagons and the bodies were stacked in heavy express wagons and other ordinary vehicles, which were all draped with flags. There were no bands of music to stir the people with doleful melody—everything was quiet and business like. The task was too big to be hampered by any usages of ordinary funerals. Forty-seven men were to be buried and to bury them it was necessary to haul them ten miles up steep hills and along dusty roads. But there was a striking display of flowers. Every casket bore a beautifully executed wreath of asparagus ferns, white carnations and immortelles sent by the San Diego commercial bodies. The flags came from the nation in whose service they had died. Every one of the plain, blackstained caskets was draped with the national emblem.

From noon the cortege toiled to the burying ground and not until 6:30 p. m. was the last casket placed in the rock-ribbed trenches.

### The Trench of the Dead.

The death trench in which the bodies were placed in two rows, feet to feet, is 60 feet long and 14 feet wide. It was finished but a few minutes before the arrival of the first load of bodies.

Around were drawn up in long lines the artillery company from the fort on the west, the naval reserves on the north, the Bennington's survivors on the east and the Universal Brotherhood on the west. Just outside the simple picket fence enclosing the burying grounds gathered the public in solid masses on all sides. This was the setting for the most impressive spectacle—the culminating scene of San Diego's week of sorrow.

Shipmates from the Bennington, in squads of six, came from the ranks in rapid succession, lifting the caskets gently by the head and feet and depositing the bodies in the trench, guided by Lieutenant Tobin, who directed them and saw that the board placed

at the head of each was properly marked and numbered. In just one hour and fifteen minutes the last body had been deposited in the trench. The work of caring for the unfortunate men, begun last Thursday morning, was completed.

The representatives of the church then pronounced final blessings on the dead.

Commander Young of the Bennington in a brief address confided the care of the dead to Captain Scott, commander of Fort Rosecrans, who accepted the sacred trust.

In quick succession the artillery fired three sharp volleys above the long grave and a bugler sounded the last bugle call over the dead.

The crowd turned and walked away. The naval reserve boys cast their flowers upon the coffins. Thus they buried the Bennington's dead.

### THE TOTAL CASUALTY LIST.

One Hundred and Twenty-five Victims of Bennington Disaster.

San Diego, Cal., July 24.—A careful compilation of casualties resulting from the disaster on the United States gunboat Bennington is as follows:

Buried in military cemetery at Fort Rosecrans Sunday, 47; dead now in morgue awaiting shipment to relatives, 11; dead in fire room of Bennington, still unrecovered, 2; total dead, 60.

Injured at hospital, 49; missing, 16; grand total, 125.

Of the injured at the hospitals seven or eight are expected to die.

Ensign Perry's body has been embalmed and will be shipped to the naval cemetery at Annapolis.

Captain Drake has appointed the usual boards in cases of accidents to carry on the work and make investigations. All the members are members of the Bennington's crew.

The formal investigation will be made by Admiral Goodrich upon the arrival of the Chicago.

### BOYCOTT OF AMERICAN GOODS.

Chinese Will Allow Merchants to Sell Existing Stocks.

Shanghai, July 24.—In carrying out the boycott by the Chinese of American goods which was arranged for at a mass meeting here July 20, an exception will be made in the case of American dealers who have not yet received supplies of new goods. They will be allowed to sell their existing stocks, but in the future contracts with them are forbidden by the leaders of the boycott movement. It is announced also that Chinese pupils will be allowed to continue in attendance at American schools.

### OIL TANKS ON FIRE

### CONFLAGRATION AT HUMBLE,

TEX., MAY RESULT IN HEAVY  
LOSS OF LIFE.

Humble, Tex., July 24.—Fire started Sunday in a tank belonging to the Texas Oil company, caused by lightning striking the oil. The fire was held under control all the afternoon, but began to spread at night and twelve tanks belonging to the company are certainly doomed. Eleven of these contained 200,000 barrels each and the one struck had 235,000 barrels. The fire had started across the prairie toward other rigs, but its progress was held in check somewhat by a heavy rain.

The loss up to 11 o'clock p. m. is estimated at 1,000,000 barrels of oil, or \$250,000, with the fire still raging. There are rumors but no confirmation of loss of human life.

At 2 a. m. Monday morning there was still no confirmation of any loss of human life in the fire. The twelve tanks of the Texas company at 2 o'clock were all ablaze and the entire lot will be consumed. Little rivulets of burning oil are running toward the oil field proper, but a heavy rain has been falling and an electrical storm raging, the water serving to keep the derricks from burning. The workmen have all fled from the field. The town itself is filled with refugees.

It is said that fifty men are surrounded by the flames and their fate is unknown. One hundred teams are known to have been cremated and a number of families have been burned out of house and home.

There will be considerable loss of property besides that of the oil, which in itself may run up to 3,000,000 or 4,000,000 barrels.

### FAST FREIGHT TRAIN WRECKED.

One Trainman Cremated and Two Others Badly Burned.

Des Moines, Ia., July 24.—Brakeman James Murphy of Trenton, Mo., was cremated in an oil explosion following the derailment of a Rock Island fast freight at Unionville, Ia., Sunday. Conductor Horace Davidson and Fireman William Flesher, both of Trenton, were perhaps fatally burned. The wreck was caused by the spreading of the rails. Fourteen cars of merchandise were burned.

## KILLED BY A CYCLONE

### TWO MEN MEET DEATH DURING

A TERRIBLE STORM IN RACINE COUNTY, WIS.

### PROPERTY LOSS IS HEAVY

### GRAIN RUINED AND MANY FARMS

BUILDINGS WRECKED OR  
BADLY DAMAGED.

Racine, Wis., July 24.—With a roar that was heard five miles, a cyclone struck the northern rim of Racine county Sunday, killing two men and damaging property and crops valued at \$100,000.

The cyclone came from the southwest and its first dip struck the large barn of Adolph Meisner, which was torn to pieces, the debris, with grain and farm machinery, being scattered 200 feet. Trees were uprooted and fences blown away, the damage on this farm alone amounting to \$5,000. In every quarter grain is ruined, but no other buildings were destroyed. For miles trees can be seen uprooted and fences down.

At a farm in Thompsonville a workman whose name was not known was struck and killed. Near Union Grove Adam Hunter, an old farmer, was picked up by the storm and his neck was broken. At the Hammerson brick yard lightning struck a shed and six men were stunned.

Two barns were struck and their ends wrecked. At least a dozen cattle were killed and the telephone wires in the district were blown down.

### THE PAUL JONES EXPEDITION.

Will Complete its Mission With the Landing of the Admiral's Body.

Annapolis, Md., July 24.—The John Paul Jones expedition, commanded by Rear Admiral Sigsbee, will complete its mission with the landing of the body of the distinguished dead during the morning. The eight ships of the squadron, four cruisers and four battleships, have rested all day in the anchorage off the naval academy, lying in double column, with the cruisers, headed by the Brooklyn, nearest the city. The day has been without ceremony with the exception of the exchange of calls between Admiral Sands, superintendent of the naval academy, and Admirals Sigsbee and Davis and Captain Gervais of the French cruiser Jurlen de la Graviere.

### On the "half deck" of the Brooklyn.

In a spacious compartment at the entrance to the cabin of Admiral Sigsbee, lie the remains of John Paul Jones. They are contained in a casket of lead, enclosed in another of wood, of handsome design and draped with the colors. Constant guard is kept by an armed jackie. Admiral Sigsbee regards his mission as eminently successful and satisfactory. His squadron has steamed nearly 7,000 miles without delay on account of accident or mishap to machinery.

At 8 o'clock a. m. Rear Admiral Sigsbee will salute Rear Admiral Sands with thirteen guns and the salute will be returned from the shore batteries. A salute to the squadron from the French cruiser will then be given and returned. With these formalities over the active transfer of the body will be begun. The personnel of the fleet will be put ashore in small boats to form an imposing guard of honor when the body is landed. Its transfer to the shore will be made on the naval tug Standish and the landing made on a float draped and moored to the wharf. It will then be placed in a hearse and transferred to the vault in the academy grounds. The only ceremony will be the reading of the Psalms by Chaplain H. H. Clark of the academy.

### FOUR MEN ARE MISSING.

Believed to Have Perished on Brandywine Shoals.

Lewes, Del., July 24.—Four men are believed to have been drowned Saturday evening by the sinking of the yacht Markeete near the Brandywine lighthouse in Delaware bay. Dr. Hobart A. Hare, a prominent physician of Philadelphia, and Lucius S. Landreth, also of that city, were rescued and brought here. The four men believed to be dead constituted the crew.

The Markeete, accompanied by the yachts Zealand and Circe, left Philadelphia a few days ago for a cruise. Late Saturday the Markeete grounded on Brandywine shoals during a storm. The Circe was signalled and responded, taking off Dr. Hare and Mr. Landreth. The crew of four men was left aboard to care for the vessel, with the understanding that a tug would at once be sent to pull the yacht off the shoal. The tug Juno was sent and when she arrived at the shoals found that the yacht had sunk in the ship channel. There was no sign of the crew anywhere on the bay.

### YELLOW JACK AT NEW ORLEANS.

Officials Hard at Work to Prevent Spread of the Fever.

Washington, July 24.—The officials of the public health and marine hospital service are working in harmony with those in Louisiana in the efforts to prevent any spread of the yellow fever from which an Italian died Saturday in New Orleans. Several cities have declared quarantine against New Orleans.

## DANIEL LAMONT DEAD

### SECRETARY OF WAR UNDER PRES-

IDENT CLEVELAND DIES OF  
HEART DISEASE.

New York, July 24.—Colonel Daniel S. Lamont, secretary of war under President Cleveland, died at 9:15 Sunday evening at his country residence at Millbrook, Dutchess county, N. Y., after a brief illness.

Nothing but the bare announcement of Colonel Lamont's death was made public by the family Sunday night.

It was understood that the death was unexpected, although Colonel Lamont had been in feeble health and the members of the immediate family were gathered at the "Altamont," the Lamont country home at Millbrook. Intelligence of the approaching death of Colonel Lamont was sent earlier in the evening to Dr. Joseph D. Bryant of New York, a lifelong friend of the colonel, and summoning the physician to Millbrook. Dr. Bryant had, however, been called out of town and could not be reached by Mrs. Bryant, who later received a second message announcing Colonel Lamont's death.

It is learned that heart failure was the cause of Colonel Lamont's death.

Colonel and Mrs. Lamont were out driving Sunday afternoon and Mr. Lamont appeared to be enjoying the best of health. After dinner he complained of feeling ill and Dr. Stewart of New York, who is a guest of the house, immediately went to his aid. The physician diagnosed the case as an attack of heart failure and in spite of the heroic treatment Mr. Lamont passed away within half an hour.

Daniel Scott Lamont was born at Cortlandville, N. Y., on Feb. 9, 1851. He began life in journalism and from 1885 to 1889 was private secretary to President Cleveland, by whom he was appointed secretary of war on March 6, 1893. Mr. Lamont was vice president of the Northern Pacific railway and a director and a trustee in many railroad and financial corporations. He leaves a widow and two daughters.

## A Whip in the Pulpit.

A writer in an English review tells a reminiscence of a brother of a famous dean of Christchurch. The brother was rector of a small parish. His eccentricity was somewhat remarkable. He was a famous whip and drove a splendid team, of which he was very proud. He was fond of showing off how he could flick a fly from either of his leaders' ears without touching the horse. This accomplishment he transferred to a rather unexpected locality, for he always carried his whip up into the pulpit with him, and woe to the unfortunate member of his congregation whom he detected nodding.

## The Stork's Balancing.

No one has really seen a stork until he has watched him stand on one leg beside his nest. After one has seen this feat he is sure it was a stork. Nothing in the animal kingdom is more marvelous than the way this great bird can balance his long body on a piece of bone which is no thicker than a wheat stalk and to behold also the perfect ease with which he goes to sleep while still poised in this critical position.

## Not Interested.

Father—Robert, is it not about time that little boys were in bed? Robert (aged six, carelessly glancing at his watch)—Really, father, I must be excused from venturing an opinion. It is a subject in which I have little interest. I have no little boys, you know.

## Conjugal Agreement.

Mr. Winkle—There, I've forgotten to post your letter again. I am very absentminded. Mrs. Winkle—Yes, your mind has been absent a good many years.

The Vanderbilts recently put a novel piece of rolling stock on their profitable little road, the Pittsburg and Lake Erie, in the shape of a "rathskeller" car, which is to be run daily between Pittsburg and Cleveland, says a special dispatch from Pittsburg to the New York Press. The car has been introduced to meet the requirements of the many business men who make the trip between the two cities, often three and four times each week. It is one of the handsomest pieces of railroad equipment in the United States, and is said to have cost \$27,000. In form it is a combination cafe and club affair, with a general rathskeller effect. It is lighted by electricity. Accommodations in it are not reserved, the club facilities being for the use of all patrons of the cafe.

The windows of the car are somewhat higher than are those of an ordinary Pullman and are considerably wider, giving an unobstructed view of the scenery. The decorations are similar to those found in all rathskellers. There are tables and lounging chairs, steins and tobacco bowls, with pipes hanging on the walls. The trains to which the rathskeller will be attached make the run between Pittsburg and Cleveland in three hours and ten minutes.

The management of the Frisco system has put in operation a plan under which veteran employees are rewarded with annual passes according to the length of their service, says the Chicago Tribune. The value of these passes will increase as the service increases. Conductors and engineers who have worked for the company fifteen years will receive passes over their respective divisions. Those who have seen twenty years' service will receive annual passes over the entire system, and those who have served twenty-five years will receive system passes for themselves and their wives.

One of the oddities of modern railroading is the "horse and carriage train" which the Long Island railroad is running on the Montauk division for the benefit of summer residents along the south shore as far as Amagansett, says the New York Herald. It is run once a week—on Wednesdays—leaving Long Island City at 1 o'clock in the afternoon. Persons can ship both horses and carriages on the same train and have them arrive at the country destination ready to drive to the summer home.

The Baltimore and Ohio railroad has established a test bureau, to which will be submitted all material for the motive power department and maintenance of way department such as rails, bridge material, cement and concrete, as well as all other material purchased by the road. J. B. Onderdonk has been placed in charge of the bureau, with headquarters at Baltimore.

The Illinois Central railroad has begun to install an electrical interlocking device on 600 miles of the main track and plans to extend it over the entire system. The device consists of an electrical arrangement in each tower which prevents the operator from changing his own signals until the man in the next station releases the lock.

Servia's Improvements.

The kingdom of Servia has negotiated a loan for \$22,000,000, of which \$8,000,000 is to be expended on new rapid fire guns and ammunition and \$0,000,000 for construction of new railroad lines.

## FLOATER FOUND IN THE RIVER

Near St. Cloud and Authorities Have Been Unable to Identify the Man

## THE MAN WAS WELL DRESSED

And Had a Gold Watch and Five Dollars in Money on His Person When Searched

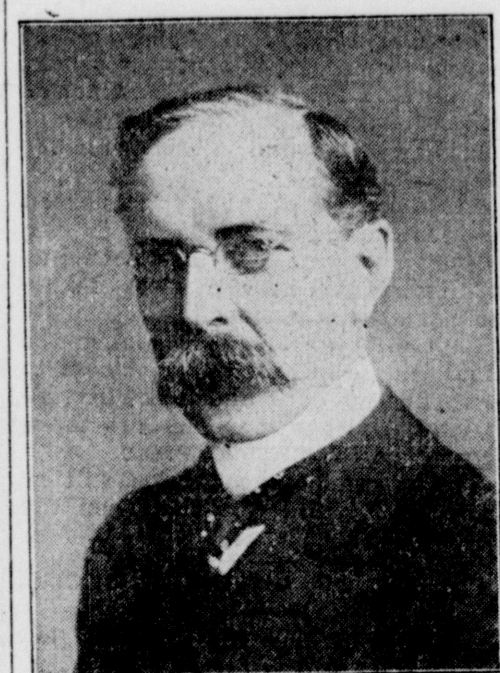

A floater was found in the Mississippi river a short distance from St. Cloud yesterday, but up to this afternoon the identity of the man is unknown to the authorities.

The man was well dressed and had a gold watch and \$5 in money on his person. He had been in the water for a long time and on this account his identity was not so easily established. He is being held for further investigation.

## CONTRACTS WELL SIGNED UP

Supt. Hartley States That Majority of the Old Teachers Will Return to Brainerd Coming Year

Supt. Hartley has been busy with the details of his work as supervisor of the schools of the city since they closed and has had little or no time for recreation yet. Much of the labor in connection with engaging teachers for the coming year falls on the superintendent. This task is well in hand, however, and Mr. Hartley will soon take a much needed rest. He states that a majority of the contracts have been signed for next year and that a large number of the old teachers will return.

## The Critical Periods In A Woman's Life

Are When the Change Comes From Childhood to Womanhood and Later When the Organs of the Pelvic Region Cease Their Work.

## DR. A. W. CHASE'S NERVE PILLS

When the child changes from girlhood to womanhood and again later in life when the organs of the pelvic region cease their work, there is a strain thrown upon the nervous system, that requires outside aid that there may be supplied a proper amount of additional strength and restive power. This Dr. A. W. Chase's Nerve Pills do to a certainty by their ability to supply to the nervous system and the organs affected, an amount of nerve strength and energy that enables them to accommodate themselves rapidly and easily to the changes taking place.

Mrs. Julia Rowland, of No. 264 Pearl St., Buffalo, writes:

"Both myself and daughter, aged 17, are deeply indebted to Dr. A. W. Chase and his Nerve Pills. They certainly are a grand tonic to the nerves. I used them about a year ago, to give me the strength and vitality to go through the ordeal that usually comes to woman at change of life, and found all the nervousness, crying spells and weakness disappear in a hurry. This led me to give them to my daughter about the time she began to have the endless trouble some girls do in early life, and the medicine acted equally as well with her. She grew strong and steady—the color became good—the languor and lassitude disappeared and she was able to go about her school duties as usual. I consider the Dr. A. W. Chase Nerve Pills unequalled as a nerve and general tonic in such cases and gladly recommend them to others who suffer in a similar manner." 50c a box at dealers or Dr. A. W. ## MYSTERIOUS MESSAGE

Sheriff Benrick of St. Cloud Gets Message From Brainerd Regarding Robbery Here

### OFFICERS DENY ANY KNOWLEDGE

That a Robbery was Committed and None of Clothiers Admit Being Touched Up

About the strangest move on the checkerboard of the experiences of a minion of the law has been made within the past day or two. Someone in Brainerd, said to be a clothing merchant, was touched up for \$180 on Saturday night just as he was closing his store, but so far it has been impossible to ascertain who this merchant was.

The information reached THE DISPATCH office from St. Cloud this morning when a reporter of The Times of that city telephoned up and wanted to know who had been robbed among the clothing men here; that a story had been told down there that while a merchant was closing his store at night someone got his finger in the till and got \$180. Upon further inquiry The Times reporter stated that Sheriff Benrick of that city had received such a message from the sheriff of this county and that two people who went to St. Cloud Saturday night were suspected of the theft. Sheriff Erickson was seen here but denies any knowledge whatever of such a crime being committed. Now the mystery is, who wired the sheriff of Stearns county and who is the merchant who was held up.

## NOTABLE ANNIVERSARY

Mr. and Mrs. L. W. Stearns, Formerly of This City Celebrate Semi-Centennial of their Wedding at Red Lands, Cal

The following regarding some former Brainerd people is taken from the Red Lands, Cal., Daily Facts:

"A notable anniversary was observed yesterday by Mr. and Mrs. L. W. Stearns at the home of their daughter, Mrs. C. J. Gardner, Texas street and Pennsylvania avenue, that day being the semi-centennial of their wedding. About half a hundred were present to greet Mr. Stearns and his faithful companion of fifty years, nearly all being relatives representing four generations.

"The day was made memorable also by the marriage of their granddaughter, Miss Lucy O. Wilson, to Fred G. Dickson.

"Appropriate decorations of golden crape and marigolds, intertwined with greenery, were used as decorations in honor of the elder couple, while white and green spoke of youthful marriage vows.

"Mrs. Stearns wore a gray dress of silk and linen, fashioned in the style of fifty years ago, and carried mixed carnations, while the more youthful bride wore cream silk mull, with orange blossoms in her hair, and carried white carnations. A simple ceremony, as nearly like the original as possible, was performed by the Rev. W. S. Mitchell, with presentation of a ring, and the ring ceremony was used in uniting the lives of the young couple.

"Following the services and congratulations, a gold cake iced in yellow and thickly studded with five-dollar gold pieces was presented to Mrs. Stearns. Many other presents in silver and china spoke of the thoughtfulness for and appreciation of both couples."

Perfect womanhood depends on perfect health. Nature's rarest gift of physical beauty comes to all who use Hollister's Rocky Mountain Tea. Bright eyes and red cheeks follow its use. 35 cents. H. P. Dunn & Co.

## MUSIC AND DRAMA.

### WAS ONE OF BEST PERFORMANCES.

The Orpheum Vaudeville company with entire change of bill appeared in this city again on Saturday afternoon and evening and it is said that they were the best performances yet given by this company since vaudeville was inaugurated. There were ten cracker-jack acts and the audience, by their applause, demonstrated that they were all good. The moving pictures by the Edison moving picture machine were better than on any previous occasion. Leoni and Leoni, the aerial gymnasts, performed some exceptionally clever feats on a nickle plated trapeze, studded here and there with electric lights. The Whitesides in their specialties were indeed clever and they received a round of applause. One of the hits of the evening was McNamee, the clay moulder, who with ordinary clay moulded in rapid succession the figures of different personages and types.—He was decidedly clever and received a round of applause. Miss Mildred Grover was only fair in her singing act. Douglas and Douglas received some well merited applause for their acrobatic comedy acts. The whole entertainment, in fact, was up to the standard and was highly appreciated.

The bill next week will be as good if not better than the last entertainment

## TO MEET THE KAISER

EMPEROR NICHOLAS OF RUSSIA

SAILS FROM PETERHOF FOR FINNISH WATERS.

### CAUSE OF MUCH SURPRISE

ACTION OF THE CZAR SUDDEN AND ENTIRELY UNEXPECTED BY DIPLOMATISTS.

St. Petersburg, July 24.—On the eve of the peace conference and with a suddenness already disconcerting to diplomatic and court circles, the emperor left Peterhof Sunday on board the Imperial yacht Polar Star for a conference with Emperor William, who is cruising on the Hohenzoellern in Finnish waters.

The first interview of the sovereigns was expected to take place Sunday evening off the Finnish port of Borgo, at the mouth of the Gulf of Finland, near Helsingfors. This will be followed by another interview Monday, after which Emperor Nicholas will return to St. Petersburg and Emperor William will continue his cruise.

The emperor is accompanied by his brother, Grand Duke Michael Alexandrovitch, and a considerable suite, including court officials, naval officers, courtiers and the emperor's escort of sailors and marines and also a guard.

It is noticeable that there is no representative of the Russian foreign office among the emperor's entourage, nor is the German foreign minister, Count Alvensleben, on board the Hohenzoellern. This gives strength to a report that a meeting was arranged between the two emperors directly, without recourse to the usual diplomatic channels, Emperor William suggesting the rendezvous by telegraph from Herodesand, Sweden. The idea, the report says, met with the emperor's favor, but the final arrangements were only completed Saturday and some members of the imperial family were hastily summoned Saturday night to accompany his majesty.

### Diplomats Taken by Surprise.

Many diplomats were taken completely by surprise by the news Sunday, the rumors that a meeting was contemplated, which were current since Friday, having met with the flattest denials in official quarters and the German ambassador having stated that he knew nothing of any such plan being on foot. Emperor William's action was instantly connected with the Moroccan question and admiration for his political astuteness in realizing his opportunities was expressed on all sides.

Like the last meeting between Emperor Nicholas and Emperor William at a hunting seat in Poland, where the European and Eastern situations were discussed between the strokes of a game of billiards and Russia was assured that she need have no anxiety regarding her western frontier while engaged with the Japanese, the conferences in the cabin of the Hohenzoellern and the Polar Star will be entirely informal and probably without secretaries or other witnesses unless perhaps Grand Duke Michael Alexandrovitch should be a participant.

There is no set programme of subjects for discussion aside from a general consideration of the factors in the present situation affecting the two empires, but it can be stated that the coming meeting of the Russo-Japanese plenipotentiaries will occupy a place in the foreground.

The action of Emperor William in seeking a conference at this moment is generally interpreted as assurance of his moral support of Russia in the coming purpours at Washington and Portsmouth and to show that German participation in the recent Japanese loan was not a mark of the alienation of German sympathies from Russia.

### FOR THE PEACE CONFERENCE.

Preparations Are Progressing Rapidly and Satisfactorily.

Portsmouth, N. H., July 24.—Preparations for the peace conference are progressing rapidly and satisfactorily and by Aug. 5, the day on which the plenipotentiaries are expected to reach Portsmouth from Oyster Bay on board the Mayflower and Dolphin, all will be in readiness for their reception. The Washington government and the state of New Hampshire are co-operating in the effort to make the surroundings of the conference as suitable as possible and are receiving generous assistance from the people of Portsmouth and the adjacent villages of Kittery, Me., where the navy yard is located, and Newcastle, N. H., near which the plenipotentiaries will have quarters in the Hotel Wentworth.

Mr. Peirce, third assistant secretary of state, who is acting for the president in directing the arrangements, left Sunday night for Washington, where he will provide for the shipment of the necessary furniture for the equipment of the navy general store, which is to be used for the sessions of the conference.

From an authoritative source it is learned that both missions expect that the question of an armistice will be the first subject broached after the conference is convened. The Japanese will insist that this be for a limited period, perhaps one month, which in their opinion will furnish adequate time for the conference to complete its work.

## BRAINERD TOOK BOTH

Royalton Given a Bad Beating on Their Trip to Brainerd Losing Both Games to the Locals

Unfortunately it rained Saturday afternoon just before the game was called between Brainerd and Royalton, but those who were not there missed seeing one of the best exhibitions on the local grounds this summer, and Royalton got done to the tune of 11 to 3. Brainerd had a new find in the box on Saturday in the person of Arthur P. Drogseth and he pitched good ball and demonstrated that he was there with a few fancy ones that made them go along some. The team played like majors behind Drogseth and the game was a walkaway for Brainerd.

In the game yesterday afternoon Brainerd won handily with Victor Roderrick in the box. He has developed into a clever slab artist and although the invincible Doty was in the box for Royalton Brainerd had no trouble in downing him. It was a case one, two three. The score was 8 to 3 in favor of Brainerd.

The feature of both games was the umpiring of Dr. Chance, of Royalton. He is always good and it added much to the interest of the game to see him work like a clock.

### GENERAL BLACKMAR'S FUNERAL.

Remains of the Noted Veteran Laid to Rest.

Boston, July 24.—Veterans of the Civil war, Sons of Veterans, members of the Woman's Relief Corps and other patriotic societies Sunday paid honor to the late General Wilmon W. Blackmar, whose funeral was held in this city, where less than a year ago, at the national encampment of the G. A. R., he was elected commander-in-chief.

During the morning the body lay in state in Memorial hall at the state house, surrounded by Civil war battle flags. The casket was draped with the national colors and guarded by comrades of E. W. Kinsley Post 113. Ten thousand persons passed through the hall and gazed on the face of the dead commander.

Early in the afternoon thirty Massachusetts posts of the Grand Army, followed by the funeral party and Troop D of the First battalion of the state cavalry, escorted the body to the Second Unitarian church, of which General Blackmar was a member. The funeral was conducted by Rev. Edward A. Horton, chaplain of the Massachusetts senate.

At the conclusion of the burial ritual of the Grand Army of the Republic, a bugler sounded taps from the choir loft and the service ended.

The body was then escorted by Troop D to Cedar Grove cemetery, where interment took place in the Blackmar lot, overlooking the Neponset river.

The edict of the musicians' union that union bands should not participate in the funeral procession was disregarded by two organizations, but no unpleasant incident arose.

### Chinese Daily in San Francisco.

San Francisco, July 24.—It is announced that Chinatown is to have an eight to ten-page morning daily paper printed in the Chinese language. It will be the only such morning paper published outside of China. The paper will be published along American lines, will be illustrated and is to represent a new political party formed in China and this country.

### TELEGRAPHIC BREVITIES.

The body of Edward Gottschalk, suicide and murderer by his own confession, was buried in Roselawn cemetery at St. Paul Saturday.

The body of an unknown man, without clothing, was found in the Mississippi river at Pine Bend, below South St. Paul, Sunday night.

It is rumored that John F. Wallace, formerly chief engineer of the Panama canal, is to be made president of the Seaboard Air Line railroad.

Mary Matheson, nine years old, of St. Paul, was drowned by falling from William Uchman's launch Ethel near Inver Grove, Minn., Sunday evening.

Jean Jacques Benner, the distinguished painter, who has been seriously ill for some time, died at Paris Sunday. He was born at Alsace in 1829.

In saving the lives of an unknown woman and her baby William J. McDonald, flagman of the Long Island railway, died a martyr at his post in Long Island City.

### The Duck and the Orator.

Some day, my child, I will take you out into the wide, green country and show you a young Pekin duck. He is an active little tyke, is the Pekin duckling, even when he doesn't date back farther than day before yesterday. When it comes to swimming he is a slight reader, and he is more destructive to tender grass than a young Nebuchadnezzar. But unfortunately he is so constructed and flat of back that if by any chance he gets turned wrong side up he cannot turn over again unaided, and unless help comes he lies there and paddles the air with his little feet until he fans himself to death. He is cheerful about it, though, and makes no outcry, apparently thinking that because his legs are working he is swimming along according to Hoyle.

My child, a little duck on his back and the average after dinner orator on his feet are both deserving of the sympathy which we should be ever ready to bestow on the unfortunate, and therefore we should sign all petitions that are presented to us looking to the establishment of a commission to turn little ducks over and loquacious gentlemen down in the hope that if they are prevented from paddling and gabbling themselves to death they may be of some use hereafter.—Tom Watson's Magazine.

### Heredity Mysteries.

"If there is much virtue in the doctrine of inherited qualities, why is there such a vast difference, as we see in a multitude of instances, between brothers or between sisters?" said an observer of men and things. "Years ago I began to make a study of this matter, and I have a book at home filled with cases bearing on fraternal disparities. I know of a learned jurist, and a most excellent man from every point of view, who has a brother in the penitentiary. I knew of a family of six brothers, three of whom were men of the highest social and business standing, while the other three were knaves and vagabonds, outcasts from society. They had the same father and mother, the same moral and intellectual training. Whence the difference? I know of two sisters, one of whom is an angel and the other a totally depraved creature. Inherited qualities often exist and are influential in the formation of character, but the law of their transmission is wholly uncertain."—Washington Post.

### Motley's First London Dinner.

When Mr. Motley, the historian, was American minister to London he had trouble at his first dinner party. Mr. Leveson-Gower says: "At that time couples were sent in to dinner in pairs, but nobody's place was fixed. Unfortunately the Turkish ambassador was allotted to Lady Waldegrave, who did not care to have him as her neighbor. She consequently told him that his place was at the other side of the table. He, with oriental politeness, did as she bade him and sat down opposite to her. This upset the whole arrangement. The couples wandered about the room like sheep that were being driven out of a field. Mr. Motley, who had every merit except a good temper, went into a passion, and I nearly died of laughing."

### The Dance of the Gods.

At the great festival of the New Year held in Lassa the "dance of the gods" is performed in the presence of the grand lama. A long cable of twisted leather thongs is stretched from a high point in the battlements of the lama's palace to the plain below, and two men slide from top to bottom, lying on their chests and spreading out their arms as if to swim. The tremendous rapidity of the descent is frequently fatal to the dancers, but there are never wanting fanatics who will undertake it in the hope of a happy transmigration or adventures attracted by the value of the reward offered by the court.

### Father of Electric Railways.

The honor of first suggesting an electric railway must be accorded to Thomas Davenport of Brandon, Vt., blacksmith and electrician, inventor and scientist. In 1834 he ran a toy motor mounted on wheels on a small circular railway, and a year later he exhibited it at Springfield and at Boston. Then it gave up the ghost, and for more than two score years various inventors, in utter ignorance of the principles of the modern dynamo and with no source of power except the zinc burning primary battery, labored with small reward.—Century.

### Proving His Love.

Bride—I know you don't love me! Groom—Why, child, what makes you say that? Bride—Because you're not jealous. Why, Mayne Gray's been married nearly a year, and her husband's so jealous that he's shot at her twice and tried to kill himself three times!

### Poor Polish.

"So he said I was a polished gentleman, did he?"  
"Well—yes. It was the same thing."  
"Ah! What was the exact word?"  
"He said you were a slippery fellow."  
—Cleveland Leader.

### Not Quite Clear.

Green—Jones was run over by a trolley car yesterday. They say he cannot recover. Brown—Who said he couldn't recover, his doctor or his lawyer?—Chicago News.

### Her Idea.

Mr. Settledown—I'd prefer to stay at home once in awhile. My idea of domestic bliss was to have a home of our own. Mrs. Settledown—Exactly, and some place else to go to.

Admiration is the daughter of ignorance.—Franklin.

A friend of the Home—A foe of the Trust

Commissions Inquiring Into Attempt on Sultan's Life.

Constantinople, July 24.—Three commissions are inquiring into the attempt on the life of the sultan Friday, but they have not yet been able to find the slightest clue either to the author or the origin of the outrage. The killed include Beha Bey, tutor to the sultan's sons. The majority of the victims were coachmen and twenty-seven hack coaches were blown to pieces and fifty-five horses were killed. Eye witnesses describe the scene after the explosion as heartrending, with men and horses lying dying around. A hole two yards wide was made in the ground by the explosion of the bomb.

FIGHTING FOR TUMEN PASS.

Japs and Russians Engaged in Desperate Battle.

London, July 24.—A news agency dispatch says that a desperate fight for the possession of Tumen pass is progressing. Thirty thousand Japanese under General Hasegawa are impetuously attacking the Russians. Four charges have already been repulsed with terrible slaughter. The Russians are still stubbornly holding their ground.

Japanese warships now occupy Posselt bay.

Baron Komura in St. Paul.

St. Paul, July 24.—Baron Jutaro Komura and party were in St. Paul six hours Sunday while on the way to Oyster Bay to confer with President Roosevelt concerning negotiations with Russia to terminate the war in the Orient. On the urgent request of the plenipotentiary his visit in St. Paul was not marked by any demonstration. The party left on the 8:40 train over the Burlington for Chicago.

IN COTTON CROP REPORTS.

Alleged Jugglery to Be Investigated by a Grand Jury.

Washington, July 24.—The grand jury of the District of Columbia during the day will take up the allegations that there has been jugglery in the cotton crop statistical reports of the department of agriculture with a view to possible indictment or indictments.

This action is the immediate result of the recent disclosures in the department which culminated in the dismissal of Edwin S. Holmes, the associate statistician. The announcement that the grand jury would meet to consider the subject was made in a statement issued by United States District Attorney Morgan H. Beach Sunday night.

The meeting is in pursuance to a call issued by the district attorney July 20 and is to consider among other things "certain criminal practices alleged to exist and to have existed in one of the executive departments."

"I had diabetes in its worst form," writes Marion Lee, of Dunreath, Ind. "I tried eight physicians without relief. Only three bottles of Foley's Kidney Cure made me a well man." H. P. Dunn & Co., mfwlm
